Free spin

Bonus description

Bets in the casino (mainly in slots) at the expense of CHEXX.

A Player can receive a free spin upon registration as part of a welcome bonus:

- **50 free spins with a nominal value of 1 USD** in one game for all Players or
- in another combination if the Player entered a promotional code that activates free spins of another combination.

Free spins can be used only in one game, which the Player chooses independently from those offered - **no more than 10 games.**

Time to choose a game is limited – **7 days.**

Time for using the awarded free spins is limited – **24 hours.**

The Player must play all free spins to receive a win (winnings are calculated in USD currency). If the Player does not have time to use all the free spins awarded, the Player's winnings are burned and no new free spins are awarded. If the free spin is returned, the Player can use the returned free spin.

Winnings from free spins are either immediately credited to the game account in the currency in which the winnings are accrued, or, if wager is enabled in the free spin's settings, they are credited after the wager conditions are met. After the winnings are credited to the game account, the Player can fully use the accrued funds.

Wager conditions:

- wager size x25 of the winning amount

- winnings are limited to a maximum amount of 100 USD
- wagering for free spins is only possible in sports and casino games (in all games except live casino)
- minimum betting odd for a sports event is 1.3
- winnings are paid in USDT with the conversion of winnings in the game from free spins into USDT

The wager involves only bets with a winning or losing outcome. Refunds are not taken into account. Bets can only be made from a real account; free spins are not taken into account in the wager. Wager is limited to 7 days. If you don't have time to spin, your winnings are burnt.
